ALUMINIUM BOATS AUSTRALIA LAUNCHES NEW WEBSITE Web Site Reflects Company Growth

Aluminium Boats Australia (ABA) is delighted to announce a new, redesigned and easy to navigate web site to bring its range of aluminium vessels and High Speed Craft to ship & boat owners, operators, and brokers of the world – www.allyboats.com.au

Reflecting the growth of ABA since the original site went online in 2005, the new web site provides a window into the company which last year moved to a larger purpose-built undercover yard in Brisbane.

The new site, designed by Sarjan Infotech of Sydney, links web users to information about ABA vessels, the latest technological advancements in High Speed Craft design, and also to career opportunities for people seeking a new and exciting direction in life.

“Whether you're a ferry operator interested in acquiring a brand new state-of-the-art high speed craft, a private owner in search of a sophisticated yacht or liveaboard, or a port operator in need of effective harbour workboats, it's all here on our new Web site,” said International Sales & Marketing Manager Justin Merrigan.
